Co-Founder in Web3/Telecom. Board member at Pyth Data Association & Telecom Liechtenstein. Focus on decentralization and digital ecosystems.

# Investing In The Future

## BREAKTHROUGH TECHNOLOGIES

Powering the future of compute and energy through Quantum, AI and next-generation storage systems.

## DeFi & ETHEREUM ECOSYSTEM

Developing and managing businesses across the Ethereum ecosystem to integrate DeFi into our core business model.

## PARTNERSHIPS & STRATEGIC ALLIANCES

Building mutually beneficial partnerships with selected companies synergistic with the operational business and Ethereum treasury

## ETHEREUM TREASURY

A foundational capital reserve providing the liquidity and resilience required for long-term growth.

# Explosive Growth In Tokenised Asset Value Forecast To Hit \$16 Trillion By 2030

## DEFI EXPLOSION

- TVL growth from \$54 Billion to \$160 Billion+ signals renewed institutional confidence.

Source: Defillama, BCG Analysis 2024

Investor Presentation | January 2026

## RWA INTEGRATION

- Real-World Assets projected to reach \$16 Trillion by 2030.

## PAYMENT UTILITY

- Stablecoin volumes surpassing traditional payment networks.

# ETH vs BTC: The ETH Treasury Case

## CORPORATE TREASURY ASSET COMPARISON

BITCOIN (BTC) TREASURY STRATEGY		ETHEREUM (ETH) TREASURY STRATEGY	
Digital Gold – Store of Value & Security		Smart Contract Platform – Growth & Utility	
<b>YIELD GENERATION</b>	<b>0%</b> (Non-Interest Bearing)	<b>3-5%</b> (Staking & DeFi Yields)	
<b>ENERGY EFFICIENCY</b>	<b>HIGH CONSUMPTION</b> (Proof-of-Work Mining)	<b>MINIMAL</b> (Proof-of-Stake Consensus)	
<b>PROGRAMMABILITY</b>	<b>LIMITED</b> (Scripting only, Basic Transactions)	<b>FULL SMART CONTRACTS</b> (Complex Logic, Automation)	
<b>DeFi ACCESS</b> (DECENTRALIZED FINANCE)	<b>NONE</b> (Traditional Finance Gateway Needed)	<b>EXTENSIVE</b> (Direct Access to DeFi Ecosystem, Yield Farming, Liquidity Providing)	
<b>INSTITUTIONAL ADOPTION TRENDS</b>	<b>STEADY, MATURING</b> (Established Store of Value)	<b>RAPID, ACCELERATING</b> (Utility & Infrastructure Adoption)	

### **Yield Generation**

Unlike BTC (digital gold), ETH is a productive asset generating 3-5% native yield through staking.

### **Deflationary Supply**

Post-Merge mechanics burn ETH with usage, creating a deflationary supply dynamic superior to BTC's inflation.

### **Utility & Ecosystem**

ETH powers the entire DeFi and RWA ecosystem, providing intrinsic utility demand beyond store of value.

# Ethereum Treasury Strategy

Board-approved framework for institutional-grade digital treasury management

## Asset Strategy

- Experienced investment management team
- ETH + L2 focus
- Staged investment approach
- Staking yield optimisation

## Custody & Security

- Amina Bank (Swiss FINMA) as custody, trading, intelligence and key partner
- 2-Director multi-sig
- Cold & hot storage for holdings
- Institutional-grade only

## Governance

- Investment committee
- Board approval for all transactions
- Annual external audit
- Regular third party reporting
- IFRS compliance

# Aquis Market Listing

A regulated, transparent, and institutional-grade environment for growth

## Regulated Environment

Aquis operates under a recognized investment exchange framework with a clearly defined Crypto Assets Policy, ensuring high standards of corporate governance.

## Liquidity & Growth

Enhanced visibility and trading liquidity, supporting ETHTRY's strategy to scale its digital treasury and investments.

Stock Ticker

AQSE: **ETHY**

## Institutional Access

Provides a gateway for institutional capital to access the digital asset economy through a familiar and compliant equity structure.

# PARTNERSHIP: Amina Bank

Bringing Financial Expertise & Market Intelligence

AMINA

ETHTRY

**AMINA** Bank is a globally recognised digital asset bank, combining traditional banking services with regulated crypto-native financial solutions. Operating under the supervision of the Swiss Financial Market Supervisory Authority (FINMA), **AMINA** provides institutional-grade services across digital asset custody, trading, staking, and structured products, alongside conventional banking offerings.

The partnership supports Ethtry's evolving operating strategy and Ethereum Treasury by providing access to regulated banking infrastructure, digital asset services and institutional expertise spanning both traditional finance and decentralised technologies.

Ethtry collaborates with AMINA across a number of strategic areas:

**Business Development**

**Technical Innovation**

**Macro Intelligence**

# INVESTMENT IN & PARTNERSHIP WITH: Liechtenstein Trust Integrity Network "LTIN"

LTIN operates as a public-private partnership majority-owned by state-owned Telecom Liechtenstein, delivering sovereign blockchain infrastructure under the Blockchain Act (TVTG) with full EU MiCAR compliance. The network provides enterprises with regulatory certainty, data sovereignty through GDPR-compliant processing, and institutional-grade security powered by 100% renewable energy.

**Ethtry is an equity holder of LTIN and has engaged in a partnership spanning across various areas of the LTIN.**

**Ethtry's involvement in the LTIN is focused on:**

- Core Service – expand and enhance capabilities validator node infrastructure
- Co-Innovation on DAT excellence
- Engagement across both our operational strategy as well as improving and enhancing our Ethereum Treasury Strategy.

# INVESTMENT IN & PARTNERSHIP WITH: Liechtenstein Trust Integrity Network "LTIN"

**LTIN's partnership with Ethtry is centered around 3 pillars of collaboration:**

## **Product Development and Co-Innovation**

- DAT-focused product development
- Regulatory expertise
- Sandbox environment for PoCs

## **Market Development and Commercialisation**

- Joint go-to-market strategy
- Revenue sharing and incentives
- Brand amplification through case studies

## **Infrastructure and Core Services**

- Trusted validator network
- Verifiable Legal Entity Identifiers (vLEIs)
- Regulated infrastructure and partnerships
